What is the book dropbox?

The book dropbox is the place where you can return or leave the books during the Library opening hours as well as when the Library is closed. It is good to use the book dropbox when you are returning the books and do not want to borrow the new ones. The books you leave in the book dropbox till 16.30 will be discharged the same day you left them while the books you leave after 16.30 will be discharged the following working day and all this should be noted so that the late fee is avoided.

Interlibrary loan

For the important and specific copies of the library materials which are not in the fund and cannot be found in the other libraries in Rijeka area, the Library organizes interlibrary loan. This service is only for the library materials which are necessary for the students' studying and researching. The library materials are borrowed from the other libraries which then decide the loan terms and the conditions of the loan. The interlibrary loan from the National and University Library in Zagreb is charged according to the valid price list.
